Some Third Party Software may have different terms that you can find in an open source software package that comes with the Software or that you can download with the product documentation. Despite this Agreement, you must follow the terms of the software license agreement in the open source software package for the Third Party Software. If the third party software license agreement allows you to get the source code (like the GNU General Public License), the open source software package or the media that has the Software will have the source code or tell you how to get it.

3. DISCLAIMER OF WARRANTY.

a. **YOU ACCEPT AND AGREE THAT THE SOFTWARE IS "AS IS", WITH NO WARRANTY FROM XEROX OR ITS LICENSORS. XEROX AND ITS LICENSORS DENY ALL WARRANTIES, EXPRESS OR IMPLIED, MADE BY LAW OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF SUITABILITY FOR A SPECIFIC PURPOSE, QUALITY OR NON-VIOLATION OF THIRD-PARTY RIGHTS. Subject: Volatility statement for Phaser 4500 series color printers

Phaser 4500 series printers do not retain any latent user image in the mechanical system of the printer during normal operation. If a print job is disrupted prior to completion a latent image may exist in the mechanical systems of the printer; the image may be removed by cycling power or printing a page.

Phaser 4500 series printers do not retain any latent image in the print controller (raster image processor) or associated RAM following the completion of printing. No user data is maintained in the print controller or associated RAM following the cycling of power.

Phaser 4500 series printers contain non-volatile flash memory contained on the controller. This memory does not retain any variable printing data, but can be used to retain software updates, store fonts, etc.. No user information is retained in this memory.

Phaser 4500 series printers equipped with an optional hard disk drives will retain latent images in the optional hard disk and type face information in the font DIMM.

The chart below shows the corresponding memory types for the Xerox Phaser 4500 printer. Please note there are no remnants of customer print data retained in the printer when the optional Hard Disk Drive and/or Font DIMM is removed and (ii) the power is turned off.

Model Number	Memory Type	Volatility	User Data
4500/B/N/D/T	SDRAM	Volatile	Yes ¹
	EEPROM	Non-Volatile	No ²
	Configuration Card	Non-Volatile	No ²
	CRUM	Non-Volatile	No ²
	Flash / ROM	Non-Volatile	No ²
	Hard Disk (Optional)	Non-volatile	Yes ⁴
	Font DIMM (Optional)	Non-volatile	Yes ⁴
4500/DX	SDRAM	Volatile	Yes ¹
	EEPROM	Non-Volatile	No ²
	Configuration Card	Non-Volatile	No ²
	CRUM	Non-Volatile	No ²
	Flash / ROM	Non-Volatile	No ²
	Hard Disk (Standard)	Non-Volatile	Yes ⁴
	Font DIMM (Optional)	Non-Volatile	Yes ⁴

Notes:

¹ SDRAM memory can be upgraded to 512MB for all models

² Contains printer configuration and operational parameters. It does not contain user print data.

³ Is used for firmware code and contains no user print data.

⁴ Hard drive and Font DIMM may contain user print data and is an option for all printer models.

13. REMOTE SERVICES.

Some Equipment models can send and receive data to and from Xerox over Customer's network ("Remote Data"). This allows Xerox to update the Software and fix the Equipment remotely ("Remote Data Access"). Remote Data includes information such as product registration, meter read, supply level, settings, software version, and error codes. Xerox can use Remote Data for billing, reports, supplies, support, recommendations, and improvements. Xerox will protect Remote Data when sending and receiving it.

Remote Data Access does not let Xerox access Customer's documents or other data on the Equipment or network. Customer allows Xerox to do Remote Data Access for free. Xerox may ask Customer for Equipment contact and location details. Customer will set up Remote Data Access as Xerox instructs and help Xerox with it.. Remote Data Access. You must keep Remote Data Access enabled as long as you receive maintenance or support services from Xerox, unless Xerox says your Equipment cannot use it. 14. DRIVER DATA COLLECTION. By installing the driver software on a computer device, you consent to the Software collecting technical data and related information about the device, its operating system, its location (country and city), and how you use the Software and its features.
